To Whom It May Concern:

Please consider this cover letter and resume as my formal application for a part time position with your company.

I am a full-time Computer Science student at University of British Columbia Okanagan. I am looking for a part time job while I attend school. Up to this point in time I have completed two projects involving the implementation of databases, I have provided links to the repositories below. I have experience with MySQL, Javascript, React, HTML, and CSS.

I was previously hired as a student research assistant to lead with developing 3-D printing prototypes under the guidance of a professor within UBCO Computer Science Department. I have excellent knowledge and experience with 3-D printing. I personally own several FDM printers and have used it for a variety of projects.

Prior to my employment with UBCO, I was a prep cook at Boston Pizza in Calgary. Prior to this I was employed as a full-time line cook at Red Robin Restaurant in Vernon, BC where I was responsible for preparing and cooking meals. I was also responsible for helping our prep team prepare items and helping out in the dish pit whenever necessary. In the month of October 2015, I was recognized for being the Employee of the month for my willingness to learn and the devotion that I provided to Red Robin.

Prior to working at Red Robin, I was employed as a part-time concession employee at the Calgary Saddledome by the Calgary Flames Organization where I was responsible for the cash drawer and food and beverage orders during Flames Games, Hitman Games and various concerts. I also performed similar functions for the Flames Organization at McMahon Stadium specifically for Stampeder football games.

Prior to working for the Calgary Flames, I was a cast member with Cineplex Odeon. Specifically, I was responsible for the cash drawer at the concession stand where I filled food and beverage orders. Additional duties involved the stocking of shelves and cleanup/closing duties.

Prior to Cineplex Odeon, I worked periodically for ABS Electric Ltd as an on-call part-time electrician's assistant when required. This role involved assisting the electricians in the shop by organizing wiring and materials, shop cleanup and assisting with any tasks that the electricians required.

In addition, I have volunteered at Bay Day's events when needed to create temporary tattoo art for people at the event days. I also babysit for family and friends, and I have been paid to do snow removal and lawn maintenance when neighbours have requested it.

I am a large sports enthusiast and participate in many sports including snowboarding, Downhill Mountain biking, long boarding, paintballing and more. I also have very good social skills and would be able to assist customers when needed. I also have a good knowledge of the entertainment industry and I would be able to identify current events, movies and promotions.

The enclosed resume briefly describes my experience and education. I look forward to talking with you further. If you have any questions or would like to talk more about my qualifications for a position within your company, please contact me at your earliest convenience. I am able to start work immediately. Thank you for your consideration.

Sincerely

Damyn Filipuzzi
